## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-5 and 7, drawn to the combination of an electric assisted turbocharger, including plural stator windings, classified in class 60, subclass 607.
  - II. Claim 8, drawn to the combination of an electric assisted turbocharger, including a particular rotor, classified in class 123, subclass 565.
  - III. Claim 9, drawn to the combination of an electric assisted turbocharger, including a particular rotor, classified in class 417, subclass 407.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as illustrated in Figure

1. See MPEP § 806.05(d).

3. Inventions I and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as illustrated in Figure

1. See MPEP § 806.05(d).

4. Inventions II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be

separately usable. In the instant case, invention II has separate utility such as those classified in class 123. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. During a telephone conversation with Mr. Ephraim Starr on September 7, 2004 a provisional election was made without traverse to prosecute the invention of group I, claims 1-5 and 7. Affirmation of this election must be made by applicant in replying to this Office action. Claims 8-9 stand withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

#### **EXAMINER'S AMENDMENT**

8. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Ephraim Starr on September 7, 2004.

The application has been amended as follows: Claims 8-9 have been canceled.

### **REASONS FOR ALLOWANCE**

9. The following is an examiner's statement of reasons for allowance: None of the references teach the combination of an electric assisted turbocharger, including plural stator windings as recited in applicant's claims, nor would the inclusion of the recited limitations be considered obvious to one of ordinary skill in the art to which the invention pertains.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sheldon J Richter whose telephone number is (703) 305-0475. The examiner can normally be reached on M-F 9:30-5:00.
